

## Criteria for photo submissions to IJC Osoyoos Lake Board of Control website

### Technical specifications:

- IJC recommends high-resolution horizontal images (1600 pixels wide is preferred) for home page slider images.
- Images submitted in other size formats may require re-sizing where possible.

### Content specifications:

- Photos should emphasize the unique geography and environmental conditions of the Osoyoos Lake area. For reference on the type of content that is being sought, please visit the website of the International Joint Commission to see the home page images ([www.ijc.org/en/](http://www.ijc.org/en/)), as well as those for individual IJC Board websites (e.g. <http://ijc.org/en/iklbc/home>). Individuals must only submit their own photos (or be able to clearly identify consent of the original photographer if submitting on their behalf). Photos with inappropriate content will not be accepted.

Photo submissions will require the following information:

- Photo caption
- Photo credits
- Time/date of photo
- Location of photo (if not clearly identified in caption)
- Photographer's contact email and/or phone number.

This will allow us to post a properly labelled and credited photo such as "*A picture of Osoyoos Lake, taken in April. Credit: Bruno Tassone (2015)*" (for example).

### Terms of Use:

- The International Osoyoos Lake Board of Control plans to select the best photos for home-page sliders, to highlight the scenic value, unique geography and water features of the Osoyoos Lake basin at different times of the year.
- IJC Website managers may need to adjust photos to meet dimension and resolution requirements for posting to the IOLBC website.
- By submitting photos to the IOLBC website, photographers agree to public sharing of their photos.
- Individuals will be informed of decisions to select photos for display on the IOLBC website and selected photos will be credited to the photographer. No payment will be provided for photos shown on the IOLBC website.

### Submit digital photos to:

- Gwyn Graham (Canadian Board Secretary): [gwyn.graham@ec.gc.ca](mailto:gwyn.graham@ec.gc.ca)
- Marijke van Heeswijk (US Board Secretary): [Heeswijk@usgs.gov](mailto:Heeswijk@usgs.gov)
